

CONSTRUCTION

KitchenBOXY is built with durable and weather -resistant materials such as galvanized steel sheet and HPL laminate to withstand demanding outdoor conditions. The outdoor kitchen includes a range of kitchen appliances suitable for outdoor use, such as a built-in grill and fridge. Storage cabinets are built into the design to keep kitchen utensils, dishes and other essentials organized and protected. A sink with running water allows you to easily wash your hands, kitchen utensils and dishes.

2 installation variants:
 - island (360° access, covered back side) - wall-mounted (270° access, exposed back, possibility, but not necessity, of mounting to the wall)

Materials 100% resistant to weather conditions:
 - body and fronts: Powder-coated galvanized steel
 - tabletop: compact HPL 12 mm tabletop for outdoor use

The Outdoor Kitchen includes*:

1. Open cabinet
2. Cabinet with sink and tap
3. Cabinet for built-in refrigerator
4. Cabinet for built-in grill
5. Cabinet with shelf
6. Cabinet with 2 drawers

*All components can be ordered separately as a customized set.

*It is not included the built in grill and the refrigerator

Island covered back side.
